

Malfunction Coatron M4: Loading data

Description

Instruments freeze during bootup and display "Loading data"

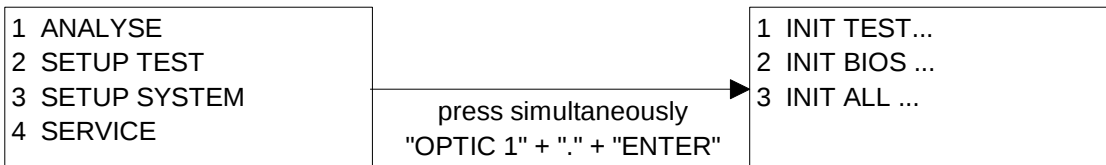

Corrective Actions:

- a) check battery on mainboard (SL 750/PT 3.6V 1.1A) and replace if below 3.3V

- b) Perform factory reset

Within the "main menu" press key "**OPTIC 1**" and "." and "**ENTER**" simultaneously.

- c) Replace mainboard
